KEY DIFFERENTIATORS

Our Team – Our team consists of industry specific recruiters, with multiple years of experience sourcing, screening, pipelining, and placing quality candidates.

Our Clients – We are very selective with our company partnerships to ensure the best companies get the best candidates. From local family owned establishments to global enterprises, quality is key.

Our Candidate Pipeline – We are just as selective with our candidate pool as we are with our client base. We only present the best viable candidates to our clients. No sandbagging. The best for the best.

Personal Approach, Rapid Results – We are not a one size fits all agency. We utilize a unique and very personal approach to our recruiting and client management methods. Each client has a dedicated Client Manager, who is available by phone, text, or email at a moment's notice. This provides real time, custom tailored action items, and faster, more efficient results.

Multinational Coverage – Our client list includes local, regional, Fortune 500, and international footprints. We are currently sourcing in all 50 states, most of the Caribbean, Mexico, and Canada.

Long Term Relationships – More than 90% of our clients are repeat clients, who call on us when they expand or need a fast and reliable placement for a must have requisition.
